

JOEL NICOLAS MORAN

Full Stack Developer

(+54) 11 25442653 - Garín, Buenos Aires - joel.programador@hotmail.com
joelmoran.com.ar - linkedin.com/in/joel-moran - github.com/ChiqoGamer

University Technician in Programming from Universidad Tecnológica Nacional (UTN FRGP) and Full Stack Developer with a strong foundation in Object-Oriented Programming (C#, Java, C++) and specialization in front-end development using JavaScript and React.

Experienced in API integration, SQL database management, and responsive design. Committed to clean code practices, continuous improvement, and collaboration within agile teams. Currently expanding knowledge in UX/UI design.

PROFESSIONAL EXPERIENCE

Front-End JavaScript Developer – Talento Tech

Apr 2025 - Jul 2025

Developed a fully functional e-commerce web application using HTML, CSS, and JavaScript. Integrated a REST API for dynamic product loading and implemented LocalStorage for cart management. Designed a responsive interface using Flexbox and CSS Grid. Project available on GitHub.

Developer – Colidevs

Aug 2024 - Present

Developed the company's landing page using Astro and Tailwind CSS, focusing on performance, responsive design, and SEO best practices within a product-oriented team.

Programming Tutor (C++)

Apr 2024 - Present

Provide personalized tutoring to university students, focusing on programming logic, flowcharts, and practical problem-solving to strengthen their academic performance.

Docente Auxiliar – Programación I (UTN FRGP)

Aug 2023 - Present

Assist in theoretical and practical classes at Universidad Tecnológica Nacional (FRGP), supporting students, resolving technical questions, and grading assignments and exams.
